

**QUICK CHANGE DISCS**

**QUICK CHANGE DISCS**

Our Quick Change discs (for a Quick Change Tool or Air Tool) are available in a variety of materials, such as ceramic, non-woven surface conditioning material, and zirconia. Additionally, we sell Quick Change strip discs and Quick Change flap discs. These Quick Change discs (for a Quick Change Tool or Air Tool) are excellent for polishing, sanding, grinding and finishing stainless steel, mild / black steel, aluminium, all metal, plastic and copper. They give superior performance for weld and edge grinding, rust and paint removal, deburring, blending and surface preparation. Choose from 2", 50mm and 3" 75mm pads in a wide range of coarse and fine grits. Ceramic discs can last up to four times longer compared to Zirconium discs and have a very high degree of material removal. [Surface Conditioning Quick Change discs \(for a Quick Change Tool or Air Tool\)](#) are ideal for polishing and finishing metal work. [Zirconia Quick Change discs](#) are premium material for sanding and grinding back all metal.
